

Provider list — what xAI Teck works with

As of August 2026 · [xaiteck.ai/en/tech-stack](#)

14 may touch your data

13 of those with DPA or on our own hardware

6 on our own hardware

27 tools in use

A · Tools that may touch customer data in a project (14)

Provider	Purpose	Data categories	Processing location	Retention	DPA · transfer · evidence
Claude (Anthropic) USA (contracting party for the EU: Anthropic Ireland)	Primary model for analysis, text and code — in Claude Code, Cowork and via the API on our own sites.	Task texts, document extracts, code — only via accounts with a DPA	outside the EU Processing in the USA, Europe, Asia, Australia (routing), storage in the USA; no EU data residency selectable	30 days at the provider, then deleted	DPA in place · EU Standard Contractual Clauses Part of the Commercial Terms (client-data accounts and API); the development account without a DPA never sees customer data
Ollama (local) —	Open models (such as Gemma, Qwen, Llama) directly on our own machine, loaded as needed — for sensitive content, testing and offline operation.	sensitive content, documents — never leave the machine	on our own hardware local on the Mac (Ollama Cloud not used)	local, deleted after processing	DPA not required
Whisper & Kokoro (local) —	Speech recognition (Whisper) and speech output (Kokoro) on our own machine — transcription of recordings and voice mode.	Recordings of conversations and transcripts — only with consent, never leave the machine	on our own hardware local on the Mac	local, deleted after processing	DPA not required
Sanity Norway (Sanity AS)	Editorial system for client websites — maintain content without a developer, with live preview.	Website content for your project (texts, images)	EU EU region Belgium (Google Cloud), secondary location USA; we do not use the AI add-on features that involve US sub-processors	until you delete it	DPA in place · EU Standard Contractual Clauses SOC 2 Typ 2 Part of the terms of service

Provider	Purpose	Data categories	Processing location	Retention	DPA · transfer · evidence
Mailjet France (Mailjet SAS, Sinch group)	Sending contact form and system emails for client websites — our standard.	Contact form data from your website visitors (name, email, message)	EU EU data centres (provider statement, country not specified)	delivery logs at the provider according to its policy; we store nothing in addition	DPA in place · EU Standard Contractual Clauses + Data Privacy Framework ISO 27001 (Anbieterangabe: zusätzlich SOC 2, PCI DSS) Part of the service agreement (Sinch DPA)
Vercel USA	Hosting for all websites; server functions in Frankfurt, delivery via a worldwide network.	Website requests (server logs, IP address), form data in server functions	EU Frankfurt (fra1) for server functions; static delivery via 126 locations worldwide	Logs kept at the provider for a few days	DPA in place · EU Standard Contractual Clauses + Data Privacy Framework SOC 2 Typ 2, ISO 27001, TISAX AL2 Part of the terms of service; DPF-certified
Supabase Singapore (Supabase Pte. Ltd.)	PostgreSQL database with an API and access rules for our own applications and client software.	Application data for your project (database)	EU Frankfurt (AWS eu-central-1); backups, logs and add-on functions may reside outside	until you delete it; backups according to the provider's schedule	DPA in place · EU Standard Contractual Clauses SOC 2 Typ 2, ISO 27001 Part of the terms of service
MongoDB Atlas USA (MongoDB, Inc.)	Document database (Atlas) for archives and analyses, cluster in Frankfurt.	Archive and analysis data for your project	EU Frankfurt (AWS eu-central-1)	until you delete it	DPA in place · EU Standard Contractual Clauses + Data Privacy Framework Part of the cloud terms of service
GitHub USA (GitHub, Inc., Microsoft)	Source code management in private repositories; in the client's own repository on request.	Source code for your project — no personal data, no live data	outside the EU USA	until handover to your repository or deletion	DPA in place · EU Standard Contractual Clauses + Data Privacy Framework Data Protection Agreement, part of the customer agreement
Claude Code & Cowork USA (contracting party for the EU: Anthropic Ireland)	Our workplace: a team of agents with defined roles (see AI Team) and connections to the tools we work with every day.	Project documents and task texts — only via accounts with a DPA	outside the EU USA (Anthropic), routing also Europe/Asia/Australia	30 days at the provider, then deleted	DPA in place · EU Standard Contractual Clauses Part of the Commercial Terms for the client-data accounts

Provider	Purpose	Data categories	Processing location	Retention	DPA · transfer · evidence
Google Workspace USA (contracting party for the EU: Google Ireland)	Business email, calendar, documents and file storage for xaiteck.ai.	Your email correspondence with us, appointments, shared documents	outside the EU worldwide data centre network; data region 'Europe' can be set for data at rest	until deletion / end of contract	DPA in place · EU Standard Contractual Clauses + Data Privacy Framework ISO 27001/27017/27018, SOC 2/3 (Google Cloud) Cloud Data Processing Addendum, part of the terms of service
Rainmaker our own software (database: Supabase)	Our own CRM extension inside the mailbox — contacts, pipeline and history where the conversations happen.	Contact details of your contact persons, conversation history	EU Frankfurt (AWS eu-central-1)	until deletion / immediately on request	DPA in place · EU Standard Contractual Clauses via Supabase (part of the terms of service)
InvoiceShelf Open source	Writing invoices, self-hosted.	Invoice data (company, contact person, services)	on our own hardware local (Docker)	statutory retention period	DPA not required
Bitwarden USA	Managing credentials in encrypted form — vault on EU servers, end-to-end encrypted.	Credentials for your systems — end-to-end encrypted	EU EU servers (vault.bitwarden.eu, Microsoft Azure EU; country not published)	until the end of the project, then deleted	DPA available on request · EU Standard Contractual Clauses + Data Privacy Framework SOC 2 Typ 2, SOC 3, ISO 27001 DPA available on request; contents are end-to-end encrypted, the provider cannot read them

B · Our internal operations — do not touch customer data (13)

Provider	Purpose	Processing location	DPA
OpenAI (Codex, gpt-image) USA (contracting party for the EU: OpenAI Ireland)	Second model as an automated helper for pure build tasks, plus an image model for our avatars — without customer data.	outside the EU	no DPA — used without customer data only
Google Gemini (API) USA (Google)	Answer engine that we query via the API to measure how AI search portrays a company — no personal data.	outside the EU	no DPA — used without customer data only
Perplexity (API) USA (Perplexity AI, Inc.)	AI search engine that we query via the API to measure visibility in AI answers — no personal data.	outside the EU	no DPA — used without customer data only
Higgsfield USA	Image and video generation for our own visual world (avatars, motifs for posts) — without personal data of third parties.	outside the EU	no DPA — used without customer data only

Provider	Purpose	Processing location	DPA

Canva Australia (Canva Pty Ltd)	Templates, graphics and document styling; via a connection directly from our workplace.	outside the EU	DPA in place

We review these details regularly and update them when things change. The contracts concluded with the respective provider and with you are authoritative; no claims can be derived from this overview. A data processing agreement under Art. 28 GDPR is in place with the providers that process customer data, or it is available on request; the respective status is shown in table A. For some providers the agreement is incorporated as part of the terms of service. Where processing takes place outside the EU, it is based on the data processing agreement and the EU Standard Contractual Clauses; for certified providers additionally on the EU-US Data Privacy Framework. Data protection contact: datenschutz@xaiteck.ai · XaiTeck GmbH, Heinrich-Otto-Straße 71, 73240 Wendlingen am Neckar, Germany.
